

# Gather Your Tribe

Call up your friends and family to join you in this year's Black Infant Mortality Walk

Tell your community why bringing awareness to Black infant mortality is important to you

# Pick Your Route

Map out a 2-3 mile walk route in your community with enough space to socially distance

Focus on areas in the community that are near area hospitals

# Walk It Out

Meet your fellow walkers on your selected route, wear your official BIMAW t-shirt, jam out to the BIMAW playlist, and WALK IT OUT!

# Be An Advocate

Download Uzazi Village's BIMAW advocacy toolkit and share with your community

Use the advocacy toolkit to write your city's stakeholders, hospital officials, & let them know the issue of infant mortality needs to be addressed
